

STATEMENT ON PPWR COMPLIANCE AND SUPPLY CHAIN ASSURANCE

Last updated: August 2026

Pixartprinting S.p.A. confirms that it has established a structured compliance management system aimed at ensuring compliance with the applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR), applicable from 12 August 2026.

Pixartprinting S.p.A. is committed to monitoring and managing the applicable PPWR requirements with reference to the packaging products placed on the market in its capacity as manufacturer or distributor, including through the involvement of its suppliers.

1. Compliance management

Pixartprinting S.p.A. has implemented verification and compliance management processes applicable to the different types of packaging and materials used, taking into account the characteristics of the products, the packaging categories and the related implementation timelines set out in the PPWR.

- **Substance restrictions – Article 5:** Pixartprinting S.p.A. applies controls aimed at ensuring compliance with the substance restrictions set out in Article 5 of the PPWR, including the cumulative limit of 100 mg/kg for lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr VI). For food-contact products, Pixartprinting S.p.A. is also verifying compliance with the PFAS substance restrictions set out in the same Article 5.

To support its compliance assessments, Pixartprinting S.p.A. collects and verifies supplier declarations and other technical documentation relating to the materials and packaging supplied.

- **Recyclability and packaging minimisation – Articles 6 and 10:** Pixartprinting S.p.A. takes into account the applicable PPWR requirements on recyclability and packaging minimisation as part of the design and provision of its packaging solutions.

Given its e-commerce business model, Pixartprinting S.p.A. makes various configurations, materials and formats available for customers to choose from. As a result, the characteristics and dimensions of the final packaging may depend on the specific configuration selected by the customer.

Pixartprinting S.p.A. therefore assesses the characteristics of the packaging solutions made available in relation to the applicable PPWR requirements, taking into account the characteristics of the materials used and the related implementation timelines set out in the Regulation.

- **Other applicable requirements – Articles 11 and 12:** Pixartprinting S.p.A. assesses the applicability of the additional obligations set out in the PPWR based on the packaging category, the material used and the related implementation timelines.
Depending on the case, such requirements may include provisions relating to reusable packaging, labelling and information on end-of-life packaging management, as set out in the Regulation and any subsequent applicable implementing measures.

2. EU declarations of conformity and technical documentation

EU Declaration of Conformity - Article 39 and Annex VIII: Pixartprinting S.p.A. maintains a general system of EU Declarations of Conformity (DoC), structured by packaging family. The declarations of conformity specific to each type of packaging are drawn up on the basis of the technical documentation and supporting compliance data, and are kept together with such documentation, in accordance with internal control procedures.

Technical documentation - Annex VII: In accordance with Annex VII of Regulation (EU) 2025/40, Pixartprinting S.p.A. internally maintains the relevant technical documentation, including material specifications, supplier declarations and compliance assessments.

Both the technical documentation and the EU Declarations of Conformity are made available to the competent market surveillance authorities upon reasoned request.

3. Supply chain alignment and supplier obligations

Maintaining full compliance across the entire portfolio requires ongoing, active collaboration throughout the supply chain.

For customers and partners: This statement confirms that Pixartprinting S.p.A. has established the processes necessary for compliance management. Where specific confirmations of compliance or EU Declarations of Conformity are required for a given packaging category, these can be requested by contacting Pixartprinting S.p.A. customer service; the appropriate documentation will be provided in accordance with the applicable regulatory procedures and confidentiality obligations.

For packaging and material suppliers – Request for cooperation: As part of its PPWR compliance management system, Pixartprinting S.p.A. requires its suppliers to provide and keep up to date the information and technical documentation necessary to support the compliance assessment of the materials and packaging supplied.

Such documentation may include, where relevant, material declarations, information on composition, analysis reports, information on restricted substances, recyclability data, and any other technical evidence necessary for the purposes of the compliance assessment.

4. Ongoing commitment and updates

Pixartprinting S.p.A. will continue to monitor and update its documentation, supply chain verification processes and EU Declaration of Conformity system in line with the evolution of the European regulatory framework.

In particular, Pixartprinting S.p.A. will integrate and update its processes and related documentation in light of further implementing acts, delegated acts and technical guidelines to be published by the European Commission in relation to the PPWR.

Pixartprinting S.p.A. confirms its commitment to maintaining a structured and continuous approach to regulatory compliance, working together with its customers, partners and suppliers to ensure that packaging and related materials comply with the applicable European requirements.
